## Case Study: Small Scale Salvage Plantability Assessments

**Client:** Prince George Forest District

**Objective:** To prepare post mountain pine beetle salvage site plans and plantability assessments on emergency bark beetle salvage sites logged between 2004 and 2006.

**Project Plan:**

- Criteria set in collaboration with client to direct the technical data collection
- Criteria set in collaboration with client to direct downstream impacts of the field assesment
- Custom field cards and reporting templates created
- "Smart" databases created to accurately manage high-volume of individual blocks/openings

**Results/ Benefits:**

- 209 sites visited and assessed
- Planting stock requirements summarized and submitted for Fall 2007 sowing
- Site plans, planting prescriptions, silviculture survey summaries, maps / RESULTS entered

**Team** Prince George Forest District
